FIELDHOME Announces Its All Private Sub-Acute Rehabilitation Program

CORTLANDT MANOR, NY, NOV. 8, 2013 — FIELDHOME, long known for its outstanding sub-acute rehabilitation, has fully converted its program to all private rooms. National studies show that patients in private rooms have shorter stays, require less pain medication, and rest and sleep better with less disruption and stress. Single-patient rooms have also been found to reduce the spread of infection.

Each of FIELDHOME's spacious private rooms includes a private bathroom, a large flat screen tv and complimentary cable, phone and Wi-Fi services. Additional amenities include personal concierge service, recreational programs, and a media room with computers and tv.

FIELDHOME has a five star Quality Rating from Medicare and the lowest return-to-hospital rate in the area. Physical, occupational and speech therapies are offered seven-days-a-week in a state-of-the-art 1,500 sq ft Rehabilitation Treatment Center, with a separate Occupational Therapy Suite. A Nurse Practitioner Clinical Director provides the extra medical oversight not typically found in sub-acute rehabilitation programs.

FIELDHOME is a not-for-profit community of caring services that includes Field Home – Holy Comforter, a rehabilitation treatment center and skilled nursing facility; The Seabury, a luxury assisted living and memory support residence; and The Early Learning Center, a licensed child care center. Fieldhome is opening an Adult Day Care Program in January, 2014, and is in the process of adding a new, independent living community, Stone Ridge, to its community.
