

## Stone Ridge at Fieldhome to Offer New Independent Living Option for Older Adults in Westchester County

### **Fieldhome's Expansion and Major Investment Shows Commitment to Local Seniors**

Cortlandt Manor, NY (PRWEB) February 20, 2013

Stone Ridge at Fieldhome is a planned independent living community coming to Westchester County. The new community will be located on Fieldhome's 96-acre campus. Fieldhome is a nonprofit community that has been providing eldercare services to Westchester County for more than 125 years. Building upon this long tradition of excellence, the new addition will complete a full complement of caring services that currently includes rehabilitation, skilled nursing and assisted living. Stone Ridge will offer seniors moderately priced maintenance-free apartment homes with community amenities and personal services, along with a complete continuum of care.

"We're excited to announce our plans for the Stone Ridge at Fieldhome independent living community," said John R. Ahearn, Chief Executive Officer of Fieldhome. "This expansion of our senior living options will create a lifestyle that caters to the desires of today's older adults, who are looking to truly make the most of their retirement years and enjoy amenities that will add to their already full lives."

Fieldhome worked closely with the Yorktown Planning Board and community leaders as they developed their plans for Stone Ridge. This collaborative effort will result in the construction of a full-service campus in line with the needs of the community-at-large.

Stone Ridge residents will enjoy carefree living in a community with an array of programs that include lifelong learning classes, cultural events, social activities and volunteering opportunities.

"Stone Ridge will fill a need in this area for a community that caters to seniors who are choosing this active and engaged lifestyle, but still provides the security of access to on-site rehabilitation, assisted living and skilled nursing, if they ever need it," said Ahearn. "This project is also a major financial investment for the community-at-large, and will provide job opportunities during the construction phase."

The Stone Ridge development plans include a three-level community with 102 apartments in 12 unique one- and two-bedroom floor plan options, complete with high-quality finishes and amenities, including garage parking. The commons area will feature two restaurant-style dining venues, a fitness center, library, salon and arts studio.
